General Description of Collection: This Rule requires an insured depository institution with \$50 billion or more in total assets to submit periodically to the FDIC a contingent plan for the resolution of such institution in the event of its failure ("Resolution Plan"). This Rule created the requirements for submission and content of a Resolution Plan, as well as procedures for review by the FDIC. The Rule requires a covered insured depository institution (CIDI) to submit a Resolution Plan that should enable the FDIC, as receiver, to resolve the institution under Sections 11 and 13 of the Federal Deposit Insurance Act, 12 U.S.C. 1821 and 1823, in a manner that ensures that depositors receive access to their insured deposits within one business day of the institution's failure (two business days if the failure occurs on a day other than Friday), maximizes the net present value return from the sale or disposition of its assets and minimizes the amount of any loss to be

realized by the institution's creditors. The Rule is intended to address the continuing exposure of the banking industry to the risks of insolvency of large and complex insured depository institutions, an exposure that can be mitigated with proper resolution planning.
